Academic Term:		Course Number: SWK 02	1550 SWK 01551

Importance of the Learning Contract

<u>Purpose of the Learning Agreement</u>: The learning agreement is designed to ensure students are mindful about the learning expectations in their field placement. It was developed to help students and site supervisors/field instructors plan a well-rounded experience that will help students meet the learning objectives.

<u>Learning Objectives:</u> The Council on Social Work Education (CSWE) requires students gain competency in nine areas of social work practice. These areas of practice are defined as *core competencies* of the profession. Each *core competency* requires practice behaviors students should be able to engage and gain competency in. Students and field instructors should provide examples of activities to help students meet the learning objectives. Some examples of activities are provided. This is not an exhaustive list, so others can be added. **Students must have an opportunity to complete tasks in all nine areas of competency, with individuals, families, groups, organizations, and communities.**

Connection to the Student Evaluation: Not only is the learning agreement a helpful tool to plan the learning goals for the term, but it connects directly to the evaluation points in the student evaluation. Field instructors/site supervisors will be asked to complete student evaluations. Each student is evaluated on the nine core competencies of social work. Having a solid learning agreement aligns the learning goals with the student's evaluation.

<u>Developing the Contract:</u> The learning contract should be completed by <u>week 4</u> at the agency. This is a collaborative process, where the field instructor/site supervisor and student meet to establish goals for the term. The student will then submit the agreement to the field education office for feedback and comments. Once approved all parties sign the agreement. The student and field instructor/site supervisor should meet weekly to discuss progress and challenges and make needed adjustments to stay on track with learning contract goals.

Form Layout:

Each page/grid is devoted to one of the nine Social Work Core Competencies. Students must have experience in all nine competencies.

Section Descriptions:

<u>Expected Behaviors</u> – the expected behaviors are those that are identified by the Council on Social Work Education (CSWE). These behaviors should be demonstrated by students during the term of the field placement/internship.

<u>Agency Activities</u>-These are examples of practice behaviors that students can do at the agency to demonstrate the expected behaviors. Most of these are general to all settings. However, if they don't quite match, feel free to **add/change these to fit with the context of your agency.** Check all activities that apply.

<u>Field Course Assignments-</u>These are a few examples of field course assignments that help reinforce the *Social Work Core Competencies*. **Students will be required to complete all field course assignments. These will be graded by Rowan instructors.**

How to Complete the Form:

- a- By week 2, students should complete all student designated sections on the learning agreement and discuss it with their supervisor/instructor.
- b- By week 4, students should submit the learning agreement in Canvas for the field education office to review. (Only upload agreements that have been approved by your supervisor/instructor).
- c- Once approved, all parties will sign the contract.
- d- After the agreement has been signed, the student will upload it to Canvas.

Learning Contract

Expected Behaviors – You will be	Agency Activities to help you achieve the	Field Course Assignments – Complete
evaluated on these at the end of the quarter	expected behaviors- Check all that apply	these in the course when assigned.
a- make ethical decisions by applying the standards of the NASW Code of Ethics, relevant aws and regulations, models for ethical decision-	Familiarize self with clients' rights and respect these and adhere to the NASW Code of Ethics.	SWK 01550 (Field I) Assignments:
making, ethical conduct of research, and additional codes of ethics as appropriate to context.	Familiarize self with International ASW code of ethics and International Federation of Social Workers.	Reflection Log entries on supervision, use of self, confidentiality and boundaries, values and ethics. Watch Cengage video on introduction to field placement, participate in class discussion. Create a self-care plan and discuss why it is
o- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations.	Advocate for those who are incapacitated, incompetent and those who cannot represent their own best interests	
c-demonstrate professional demeanor in behavior, appearance, oral, written, and electronic communication. d-use technology ethically and appropriately to facilitate practice outcomes.	Discuss personal values in supervision when they conflict with the values of the profession.	important to follow. Students will role play or formulate a decision tree demonstrating application of social work
	Discuss case scenarios with my supervisor that require ethical reasoning. Seek guidance when you experience and ethical dilemma.	ethics.
- use supervision and consultation to guide professional judgment and behavior.	Dress professionally, use appropriate, professional language and behavior.	
e-discuss self-care and its importance within the field of social work	Adhere to agency polices about technology, including telehealth, and record keeping.	
	Develop a self-care plan.	1
	Additional activities:	

For Student: After reviewing the Agency Activities and Field Course Assignments, describe how these expectations and activities will help you gain competence in ethical and professional behavior (be specific).

For Student: Write two goals that you want to achieve to help you demonstrate ethical and professional behavior: 1. 2.
